

Religious Education – 2024- 2025 Summer Program

As part of the summer intensive model, students are required to attend FOUR Parish Activities throughout the year. Our Catholic Faith is centered on the teachings of Jesus and the activities of His Church. We believe our families and children need to experience His Church to understand their role as Church members and how the Church serves the community. Families and children should participate in the community of the Church to understand how important they are to it.

Please review the attached list and choose four (or more) activities for your family to participate in. These activities are meant to nurture young children and their families in faith. They give everyone the opportunity to explore and enjoy the Mass, all the Sacraments, and other celebrations that are at the heart of who we are as Catholics. For this reason, guiding children through the Church year and the liturgy is a crucial step in enriching faith in children. Choose at least 4 events to share with us.

Please share your experience. Responses can be neatly written or typed, mailed, emailed or dropped off in the parish office. Use only the form provided please (a copy will also be emailed to you).
